

WHGS Primary Expectations Online Lessons

*This year is certainly different to other years and so we need to adapt to this.
We want children to continue to learn, whether at school or at home,
when isolating or in lockdown.*

We will be using Microsoft Tools to help this happen, including teaching online.

*It is important that parents/carers and children understand the expectations of online lesson so that they are secure and can run as smoothly as possible. Our **Continuity of Learning** plan can be found at <https://www.whgs-academy.org/learning-from-home/primary-phase>.*

Children MUST attend lessons set online and be on time.

	School Account	Our online lessons will be delivered through Microsoft Teams. When you log in to Teams, you must use your school username and password otherwise you will not be allowed into the lesson.
	Be on time	Be ready to join the lesson before the start time. Make sure you have everything you need (including your workbook) and your device has enough charge. You must not be late.
	Mute	Everyone in your class will be muted in the lesson so that the teacher can be heard.
	Camera off	Everyone at home will have their camera off. That is so we respect everyone's privacy in their own home. The camera will be on the board in the classroom.
	Concentrate	Do your best to sit in a quiet place, at a table or desk. Close all other internet pages unless they are needed for the lesson.
	Smart clothes	You do not need to wear school uniform at home for lessons, but you must be smart. No pjs allowed. Try to sit in a part of the house where people will not be walking through.
