

<b>Overview</b>	<p>Our KS3 curriculum has been developed to inspire our students to take History further, as well as equipping them with core knowledge and skills to be used at GCSE level. Students are given the opportunity to build on their knowledge of the Tudors as they begin with Paper 2 Section B, Elizabethan England. This explores prior learning, such as the Reformation, the Spanish Armada, and the Age of Exploration. At the start of Term 2, students move onto Paper 1 Crime and Punishment. This is a thematic paper that builds on prior learning from KS3, such as the Norman Conquest, the Tudors, and Industrial Revolution. In Section A, students develop their source analysis skills through an assessment into 19th police investigation of the Whitechapel murders of 1888. In Section B, students strengthen their chronological understanding, using factors to explore the causes, pace, and extent of change over time from Medieval England to Modern day. As a department, we aim to work closely with our students to make local and heritage links such as Industrial Manchester, Peterloo Massacre, Emmeline Pankhurst, and 20th century Civil Rights Protests.</p>
