## School Notes and News.

Mr. C. H. Owen has been appointed House Master to Dalton House, and Mr. F. Adams to Gaskell House.

H. W. Catrall (Byrom House), G. Lindsey (Gaskell), C. W. Murphy (Gaskell), and G. W. Neill (Dalton), have been appointed Prefects; and P. Dorrington has been appointed Head Prefect.

In the University of Manchester C. M. Mason, resident in Argentina, has been granted the degree of M.Sc., *in absentia*, and G. E. Sawdon has taken the degrees of M.B. and Ch.B. R. H. Cade has passed the Intermediate LL.B., J. S. Chorlton First M.B., Part III., and P. Dorrington Matriculation in the First Division.

G. G. Howard (Liverpool University) has passed the Final examination of the Royal Col-

lege of Veterinary Surgeons, and has obtained an appointment under government in Rhodesia.

A. M. Tristram has obtained a Manchester Education Committee University Scholarship of £60 for three years and has gone into residence at Worcester College, Oxford.

At a meeting of the School Governors in September last, the following elections were made: Foundation Scholarships, C. R. Hobson, of St. Mary's, Hulme; W. Morley, of Princess Road Municipal School; and L. A. Ravald, G. H. Walker, R. G. Oehlcke, A. L. Banton, and F. G. Mills, of the Hulme School. Public Elementary School Scholarships tenable at the Hulme School to P. K. Moyes and R. Walshaw, of the Princess Road Municipal School, and A. J. Hinchliffe and H. Roberts, of the Hulme School. C. R. Hobson and W. Morley were recommended to the Manchester Education Committee for their Bur-

saries of £10 each. A Leaving Exhibition of £40 a year, tenable for three years, was awarded to A. M. Tristram, who is entering on a degree course at Oxford University.

As a result of the Higher Civil Service Examinations held in August last, G. A. Evans, B.A., M.Sc., a graduate of the Honours School of Mathematics, Manchester University, has been selected as probationer for the Civil Service of India, and S. W. Jones, M.A., who graduated with Honours in History, has been appointed to an Eastern Cadetship, and has sailed for Penang.

H. S. Needham, B.A. (Manchester), has taken the second place in the Civil Service examination for the Indian Police, and has gone out to Bombay.

C. G. Brentnall, M.B., Ch.B. (Manchester), has been appointed house physician at the Manchester Royal Infirmary.

A. Eastwood, N.D.A., has obtained an appointment on the agricultural staff of the British Cotton Growing Association in Northern Nigeria, and is stationed at Lokoja. He is proceeding up the Benue River to erect a cotton ginnery at Ibi.

The Rev. L. A. Bradbury, M.A., formerly curate at St. Philip's, Salford, has gone out to India as a missionary under the S.P.G. for a period of seven years. He is stationed at Dapoli, Bombay.

The Rev. F. E. Brown, M.A., head-master of Preston Grammar School, who was senior mathematical master in this School for 13 years, has been appointed head master of the Church of England School, Geelong, Victoria, Australia. The school is popularly termed the "Eton of Australia." Our best wishes go with him in the important sphere of work he is entering. He takes up his new duties on January 30th next.

On September 8th and 9th C. H. Turnor, of the Anfield Bicycle Club, rode  $350\frac{3}{4}$  miles in 24 hours on a single bicycle, and thus broke the northern record by  $3\frac{3}{4}$  miles. Last year, it will be remembered, Turnor beat the North of England 24-hours' tricycle record with a score of  $319\frac{1}{2}$  miles; as these figures have not been improved upon, we have an Old Hulmeian with both records to his credit.

At the annual swimming gala for Stretford Elementary Schools, the four lengths Old Scholars' Race was won by G. W. Reed in 1min., 17secs., and S. W. Keys came in third in the same race.

The prize offered to boys in the School by Messrs. Burroughs & Wellcome for the best three original photographs has been gained by L. M. Hudson.

Our thanks are due to the following contributors of School news: L. A. Ravald, H. W. Cattrall, E. Simcock, L. B. Davis, R. Lowther, G. Lindsey, H. Roberts, C. W. Palmer.

We acknowledge with thanks the receipt of the *Whalley Range High School Magazine*, *Portmuthian*, and *Leodiensian*.

Old Hulmeians can subscribe to the *Hulmeian* by sending one shilling annually to Mr. J. A. Barber or Mr. Hewlett at the School. The three numbers will be sent post free, as they appear, in December, April, and July.

## BIRTHS.

WILKINS.—August 4th, at 44, Page Street, Johannesburg, South Africa, to Mr. and Mrs. Arnold K. Wilkins, a son.

HAGUE.—August 7th, at Greenlaw, Marple, to Mr. and Mrs. Julian Hague, a son.

BERISFORD.—August 9th, at The Cedars, Heaton Mersey, to Mr. and Mrs. S. R. Berisford, a son.

MOSS.—September 11th, at The Peak, Hong Kong, to Mr. and Mrs. Dennis K. Moss (née Connie Birdsall), a son.

BEWLEY.—September 12th, at Merok, Mill Hill, N., to Mr. and Mrs. F. Norman Bewley, a daughter.

BROWN.—October 3rd, at Burnsall, Grange Road, Singapore, to Mr. and Mrs. Edwin A. Brown, a daughter.

ASHTON.—October 8th, in San Francisco, California, U.S.A., to Mr. and Mrs. J. Geoffrey Ashton, a son.

ROWE.—December 4th, at 40, Mildred Avenue, Watford, Herts, to Mr. and Mrs. Frank Rowe, a daughter.

## MARRIAGES.

FOSTER—LAMBERT.—April 19th, at S. Mary the Virgin's Church, Newcastle-on-Tyne, by the Rev. E. B. Hicks, Trevor T. Foster, M.Sc., King Edward VI. School, Five Ways, Birmingham, to Kathleen, second daughter of John Lambert, of Newcastle-on-Tyne.

DALBY—ROBERTS.—July 22nd, at City Road Wesleyan Church, by the Rev. W. B. Dalby (father of the bridegroom), Maurice Frederick Burkitt Dalby to Alice Mary, youngest daughter of Mr. and Mrs. H. T. Roberts, of Darley Road, Whalley Range.

DEWHIRST—COATMAN. — July 26th, at St. Clement's Church, Chorlton-cum-Hardy, by the Rev. C. R. Thomas, George Parr, eldest son of the late William Bramley Dewhirst, and Mrs. Dewhirst, Chorlton-cum-Hardy, to Beatrice, eldest daughter of Charles Coatman, Chorlton-cum-Hardy.

WILKINSON—SKIPWORTH.—August 12th, at St. Andrew's Church, Wootton, Lincs., Oswald James, only son of Mr. James P. Wilkinson, M.Inst.C.E., and Mrs. Wilkinson, of Broadlea, Manchester, to Edith Mary Cecil, only daughter of the late Mr. Thomas Lawson Skipworth and Mrs. Skipworth, of Wootton Lodge, Ulceby, Lincs.

BERISFORD—FLOHR.—September 20th, at St. Philip's Parish Church, Alderley Edge, Frank, youngest son of William Berisford, of Oatlands, Alderley Edge, to Maud, younger daughter of John Flohr, of Rose Villa, Alderley Edge.

ROWLAND. — August 19th, at Siddington, Richard Howell, third son of the late Hugh and Anne Elizabeth Rowland, of Alexandra Park, in the 37th year of his age.

## The Library.

A library of books, more particularly books of Reference, for the use of boys of the Upper Forms, has always been one of the pressing needs of the School. A start has been made during the present term to remedy the long-felt want, and a number of books have been placed in the Sixth Form Room (Class-room No. 10), which should prove of the greatest value to the senior boys.

The eleventh (Cambridge) edition of the Encyclopædia Britannica is the most valuable acquisition of the new library, which also includes such important works as the Dictionary of Greek and Roman Antiquities (Smith, Wayte, and Marindin), Classical Dictionary of Greek and Roman Biography (Sir William Smith), Dictionary of English History (Low and Pulling), Companion to Latin Studies (J. E. Sandys), Companion to English History (F. P. Barnard), &c., &c.

The Library also contains a number of books on Economics and Commercial Geography presented by Douglas Knoop, Esq., O.H.

The thanks of the School are due to Sir Edward Donner for a donation of £10 towards the Library.

## A Day in the Peak Country.

A party of twelve took the train to Hayfield on a sunny mid-term morning. Hayfield has got into a terrible muddle with its streets. Within a minute or two we were lost in its crooked ways and alleys. The natives came to the shop doors to see us, and cordially helped us out of the place. Clear of the houses we could see better where we were. High, flat-topped hills surrounded us on all sides. We crossed the Sett, one of many Derbyshire streams that sooner or later help to make the Mersey. We ascended rapidly, a new sensation after the flats of the School field. We looked over a wall into the stream, pretending not to be out of breath but merely curious, and saw small trout darting in clear pools. A sundial on a stone gate-post was found to give the correct time; the keen eyes of a naturalist spotted tree-creepers. One of the party followed carefully the one-inch survey; another was interested in the workings of an aneroid barometer. The latter told us presently that we were one thousand feet above sea level.

The trees were left behind us and all around was silent moorland, Kinder on our left. We hoped to hear the shrill cry of a kite or curlew, but of bird-life there was no sign here, and the hills were strangely still. Another steep pull and we were at the highest point of the pass. Over a wall was an old stone cross, marking the point where the three ancient wards of Peak Forest met. We arranged ourselves in a group, and the camera clicked. Regardless of trespass, the party raced over a field to the edge of the Kinder ridge, the highest point reached during the day. The meteorologist reported a height of 1,900 feet.

A wide plateau stretched a mile or more away; you may see the sharp line of it from the School field on a very clear day. Dotted about were great boulders of queer fantastic shapes, big cheeses, toadstools, spinning-tops they seemed to be, so balanced we thought we could send them toppling.

The descent to Edale was gradual at first. Then we came to a steep grassy slope; Jacob's Ladder it is called. The nimble ones went

down helter-skelter, some on "Nature's bobsleigh," till a hard piece of rock, cunningly concealed by tufts of grass, pulled them up sharply and advised them to get on their legs again. The stream at the bottom was delightful, just not too wide to jump across. This was the Noe, frisking and tumbling merrily eastwards to join the Derwent and the Trent. From this point the view down the vale of Edale is charming. We admired the bright copper patches of burnished bracken, the clusters of crimson berries on the rowan tree, the purple shadows moving slowly along the hill-sides. A long white ribbon in the distance pointed to us our road for the afternoon. But we were getting hungry.

At Barber Booth we opened camera cases—makeshift for rucksacks—for food. A tiny shop was rifled of its store of mineral waters, and the going up the long hill to Mam Tor after lunch was slow and solemn. The lines of an ancient earthwork on the top of the "Shivering Mountain" attracted our attention. We noted also a change in the appearance of the rocks all round us. The brown walls of Millstone Grit had given place to white walls of Mountain Limestone. Castleton lay to the left in the valley below.

Short cuts across fields brought us to the Winnats, the "Windy Gates," a deep, sunless cleft with high tors of limestone rock on either side. Then down the high road to Castleton. We left the village street and gazed wonderingly at the mouth of Castleton's great cave, the "wonder of the Peak," as we were told at every turn, but left its exploration for another day. The Castle of William Peveril, Norman lord of Castleton, was burgled cheaply; we prowled round its square, gloomy keep, and peered over a parapet into the deep "Cave Dale" below. We came down again and bargained for a "plain tea."

Castleton was left at five. The shadows of coming night were on us as we reached the village of Hope, and the light of a tawny moon was struggling through the rising mists on Bradwell Moor. One last frolic in the village sweet shop and we wended our way towards the cluster of lights, green, yellow, and red, of the railway station, pleasantly tired, but very satisfied with ourselves.

## New Book.

A SCHOOL HISTORY OF CHESHIRE. By Charles E. Kelsey, M.A., Oxford, at the Clarendon Press. Pp. 224, with 10 Maps and 49 Illustrations. 1s. 6d.

Mr. Kelsey's School History of Cheshire is the most recent of a series of county histories published by the Clarendon Press.

Although Cheshire is not our county we can often see, from the School field, Shutlingslow Hill (see page 32) beyond the railway bridge, and at Jackson's Boat we are actually in the

"Thrice happy Shire confined so to be  
'Twixt two so famous Floods as Mersey  
is and Dee."

The reading of Mr. Kelsey's book may make our bicycle rides much more interesting than they used to be. As we sit and look at Adlington Hall we may think that 300 years ago Sir Uryan Leigh set out from that very place to help Essex to singe the King of Spain's beard. When we have run down into Prestbury we shall look for the Priest's House and marvel that the doorway of the tiny chapel is 800 years old at least. Probably most of us will have more respect for Mobberley now that we know that it is mentioned in Domesday Book.

The picture of the ladies on page 142 may send some of us to Gawsworth Church, and if we have the book in our pockets we may want to stay some time. Again, if some good fortune should take us to Chester, that "city of renown," even in the days of the Conqueror, we shall welcome as old friends those flower-pot like things near the Water Tower, notice at once that quite a number of distinguished people have had a hand in building the walls, and understand exactly (plan on page 154) why Charles I. stood on the

Phoenix Tower on that memorable 27th September, 1645, and how interested the garrison of Beeston Castle must have been in the Rowton Heath fight.

The book is so full of good things that we may begin to read it anywhere we like, and whether we go backwards or forwards we cannot get away from them.

We do not know whether we ought to congratulate Mr. Kelsey on the joy that he must have had in collecting his treasures, or to thank him for having set them out in so enticing a fashion. Better do both.

## The Scientific Society.

*President:* The Head Master. *Vice-President:* Mr. F. Adams. *Hon. Secretary:* G. Lindsey. *Hon. Treasurer:* G. W. Neill. *Committee* (in addition to the above): L. A. Ravald and G. E. Caswell.

We have much pleasure in announcing the formation of this new school society, of which there are now forty-nine members. The first meeting was held on Thursday, October 12th, most of the members being present. Mr. Adams delivered a most interesting lecture on the Solar System, illustrated by lantern slides and pictures. The Sun was treated fully, and the Planets were then dealt with in their order. Lack of time unfortunately caused the speaker to hurry over the subject of comets and shooting stars. The meeting terminated amidst great applause.

October 26th.—T. W. Roberts read a paper on "Shells." The lecturer first pointed out the difference between uni-valves and bi-valves, and then described a large number of shells, specimens of which were afterwards handed round for inspection. G. E. Caswell, assisted by G. W. Neill, then gave electrical demonstrations, including experiments on the attraction and repulsion of electrified bodies and the passage of electricity by sparks and in vacuum tubes.

November 9th.—P. Cox gave a lantern lecture on "Birds." The lecturer described the characteristics and habits of the principal land and sea birds. He also pointed out how birds were necessary to civilisation as they

destroy insect pests. F. W. Tattersall then lectured on "Eggs," of which he exhibited a large number, describing them in a most interesting way.

November 23rd.—The Rev. J. F. Tristram read a paper on "The Soul of an Animal." He gave numerous illustrations of animal intelligence, examples of which must be familiar to all, but he concluded that these did not justify us in coming to the conclusion that animals had souls within the usually accepted meaning of the word. The Rev. J. H. Smith remarked that in the popular mind the notion of the soul was usually associated with that of immortality. To affirm that an animal possessed a soul would, for instance, be regarded as claiming for it immortality, or survival of personality. Evidence of moral, rather than intellectual, qualities would be more to the point, for these imply will and therefore personality. He also mentioned that if we denied the possession of a soul to an animal we had no right to consider any of its actions blameworthy. A vote of thanks to the lecturer was unanimously passed.

## The Literary and Debating Society.

*President:* The Head Master. *Vice-Presidents:* The Assistant Masters. *Hon. Secretary:* H. Roberts. *Committee:* J. Calderwood, C. A. Humphries, C. W. Palmer, P. Dorrington, and Mr. Hewlett. Boys in the fifth and sixth forms are eligible, and those wishing to join should give their names to one of the above officers. There is no subscription.

Among the various improvements which the student of the School's history will have observed of late is the formation of a Literary and Debating Society. The need for such a society is undeniable, and as often happens, it is when the need is at last supplied that one realises how great it is. One has only to attend a meeting to find out the truth of this. No doubt the speaking and debating powers of some boys were gradually declining through the lack of a reviving and strengthening spring, while others, and perhaps most, had never had access to the waters. It would be an impossible task to relate how the society

was formed. The long winter evenings, which stop outdoor enjoyments after 4 o'clock, were becoming monotonous. Something had to be done, and something has been done. We may say even now, although only a few meetings have been held, that the result is worth the toil and trouble spent. Before a really orderly meeting was obtained, the society progressed, like a sick person, from better to worse and from worse to better continually. One day the crisis came, there was a turn, and it was a turn for the better. Our motto now is "Excelsior." No more need we fear; the foundation has been laid; we have only to work on it. The future of the Hulme Grammar School Literary and Debating Society is no longer in doubt.

These introductory remarks will explain the assembling of a number of boys on Monday, November 6th, in the new hall, in which we hold our meetings. Mr. Hewlett took the chair, and the first business was the election of officers, whose names appear above. An instructive address was then given by H. Roberts on "President J. A. Garfield," from whose life he gave several interesting episodes, and drew some valuable lessons.

On Monday, November 13th, a most lively and interesting debate took place. C. W. Palmer moved "That this house approves of the extension of the franchise to women." He claimed that women were in every way men's equals, and that there was no reasonable disqualification on account of sex. He argued the ability of housewives to make laws, and pointed out that they were the first to feel the effect of change in food prices. G. W. Neill opposed, and dealt with the question of women "deserving" the vote. If women could not keep the laws they could not be expected to make them. H. Roberts pointed out that if women were admitted to the vote on the same terms as men they would be in the majority and claim a share in office; if the vote were restricted to wives it would cause division in the home; if restricted to spinsters it would give offence to married women. E. H. Royce spoke of the good work done by women doctors and councillors. G. Lindsey, R. Nesbitt, and G. E. Caswell also spoke in favour of the motion, which was carried by 20-5. Mr. Hewlett was in the chair.

On Monday, November 20th, an impromptu debate took place, Mr. Hewlett in the chair. The first motion placed before the house was "That newspapers should be confined to the reporting of news." It was opened by J. Calderwood and opposed by W. H. Palmer. C. W. Palmer and H. Roberts also spoke against the motion, which was lost 9 to 18. The second debate, "That vegetarian diet is the best," was opened by E. H. Royce, and opposed by C. W. Palmer. J. G. Goodwin, speaking in favour of the motion, said that he himself was an example to anyone that a vegetarian diet is the best. Roberts, H., Calderwood, and Neill, G. W., spoke against the motion, which was lost 9 to 16. The next debate was, "That ping-pong is played out as a game." It was opened by R. M. Nesbitt and opposed by G. Lindsey. Neill, G. W., and Caswell spoke against the motion. The division resulted in the losing of the motion, 5 to 17. The last debate was, "That shaving is a waste of time," and was opened by Mr. Owen and opposed by G. W. Neill, who pointed out that Frenchmen's beards were more of a nuisance than a decoration. The motion again lost by 6 to 18.

On Monday, November 27th, Mr. Owen gave a most interesting lecture on "Don Quixote," the chair being taken by Mr. Hewlett. He gave the main facts about Cervantes' life, and spoke of the position which his great work occupied in literature. He then read some of the most famous episodes from Don Quixote, his encounters with the wind-mills, and the sheep, and his death. A vote of thanks was proposed by H. Roberts, and seconded by G. Caswell.

## Prize Day.

The midsummer term ended on July 27th with prize day and the athletic sports. The Head Master took the chair at the former ceremony, which was held for the first time in the new hall. There were also present Mr. Stewart Garnett, Treasurer of the Board of Governors, who distributed the School prizes, Mr. H. A. Heywood and Mr. Henry Worrall,

Governors of the School, and a large attendance of parents, Old Hulmeians, and other friends. The Head Master in his annual statement said:—

"The completion of this assembly hall is the most important event of the School year which is now coming to a close, and it is a matter for profound satisfaction that we are able at last to welcome the friends of the School in a room which, while it is not so large as we hoped for and as to-day's meeting shows we need, is yet both handsome and suitable in point of light and air for the purpose of our annual gatherings. The provision of this room satisfies the most pressing need of the School: it will enable us to come into more frequent contact with parents and others interested in our welfare, and its dignified and impressive interior will exercise an educative and refining influence in daily use. The School stands in need of many things by way of equipment, but I think the Governors and the friends who have helped them could not have made a more useful and profitable expenditure than this. Special thanks are due to the architect, Mr. Cecil Hardisty, for the skill and pains he has expended on the building, and to the contractors who have ably realised his ideas.

"A few details may be of interest. The building is of the most substantial kind: its foundations rest on a thick bed of concrete, and the piers which carry the roof timbers project as far on the outside of the building as on the inside. The roof is of solid oak, the panelling Austrian oak, and the floor is laid with oak blocks. The length of the room is sixty feet, its breadth forty-two, and its height to the ridge about forty feet. The shields beneath the corbels are adorned with the arms of persons and places connected with the trust, beginning at the platform end with those of William Hulme, to whose benefaction we owe our existence as a School, and in the opposite corner Brasenose College, Oxford, which was the original recipient of his favours; then follow Oxford and Victoria Universities, Bury and Oldham, Lancashire and Manchester, and lastly, the arms of Sir Edward Donner, who was Chairman of the Governors when the building was begun. The rough

wall at the platform end is temporary; the hall when completed will be ninety feet long.

"It is greatly to be regretted that the building could not be completed at once, but the cost of what has been done has considerably exceeded the funds at our disposal. The sum contributed by the Hulme Trust was £4,700, and a timely gift of £500 by an anonymous donor enabled the Governors to proceed without alteration of the architect's designs and to accept the contract of £5,550 for the present two-thirds of the complete scheme. The deficit of £350 has been increased by furnishing, additional works, and the installation of electric light in the old building to about £1,000. Towards this we have already received sums of £100 from Sir Edward Donner and Mr. Henry Worrall, of £50 from Mr. Samuel Gratrix, of £25 from Mr. H. C. Dixon, of £20 from Mr. G. B. Blair and Mr. G. H. Wood, and smaller sums from other kind friends of the School, the total reaching £365, and leaving about £650 still to be raised. We have now three objects to strive for: First, to clear off the debt on the present building; second, to fit out for use, in the first instance as a workshop, what has already been built, by flooring, heating, and lighting the basement at a cost of about £250; and lastly, to complete the building in accordance with the original plans. We cannot look to the Trust for any further help, for its funds are allocated for many years to come. It has already conferred a great boon on this district by expending on our buildings, equipment, and playing fields a sum not far short of £30,000, and by giving the School an endowment, which at present amounts to £2,000 a year, and totals for the twenty-five years of the School's existence the sum of £34,000. We must therefore look to the private benefactor. The Old Boys, with their accustomed loyalty, are organising a special contribution.

"The School has not been examined on behalf of the Governors this year, as it was inspected at the end of May by the Board of Education, whose report has not yet been received. The Honours List of the year is decidedly above the average. Three boys, A. H. Goodger, E. Williamson, and F. H. Williamson, have gained Manchester School of Technology University Scholarships, each of the value of

£60 for three years. A. M. Tristram has been awarded the Hulme Entrance Scholarship of £35 for three years at the Manchester University, and A. V. Rhead the William Simpson Exhibition of £35 for three years. At the same place D. Cardwell has won the Mercer Scholarship of £30 as first in the final Chemistry Honours School, together with an additional £25 from the University, and the Le Blanc Medal. H. Dearnaley has divided the Shuttleworth Scholarship of £45. H. Cardwell has received honourable mention in the competition for the Dauntsey Legal Scholarship and a special prize of £10. In addition, three students have proceeded to the degree of Master of Arts and three to that of Master of Science. P. F. Ward has graduated B.Sc. with First Class Honours in Mathematics, D. Cardwell B.Sc. with First Class Honours in Chemistry, and S. G. Birks, B.Sc. with Second Class Honours in Geology. G. E. Sawdon has passed the final examination for M.B. and Ch.B. H. S. Needham and W. H. Sankey have passed the ordinary examination for B.A., and thirteen others have advanced another stage towards the attainment of a degree. R. E. Pearson, B.Sc., has obtained the degree of Ph.D. at the University of Freiburg, in Baden.

"C. A. Humphries has been awarded a Senior Secondary School Scholarship by the Manchester Education Committee. A. Eastwood has obtained the National Diploma in Agriculture, and has entered the service of the Cotton Growing Association. Other Old Boys have qualified as Chartered Accountants, or received public appointments. We have, as usual, a goodly number who have distinguished themselves in Athletics. But it was a grievous disappointment when just as we had plenty of blank walls to decorate, the Old Boys' Lacrosse Team lost the Northern Flags and consequently the National Trophy. But we find some consolation in the addition of a handsome shield presented by Mr. Worrall, to be held by the House which gains the first position in the Athletic Sports. The House system, which was introduced in the April of last year, and which was still on its trial when I spoke of it last year, has proved an unqualified success and has produced a keen rivalry in games, which is sure

to spread to other departments. In conclusion, I have the pleasure of publicly thanking my colleagues on the staff of the School for their hearty co-operation and the active interest they have taken in the games and other out-of-school activities of the boys."

Mr. STEWART GARNETT said that as he was the first person to give away the School prizes in the new hall he thought that he ought to pay his footing. He would be very pleased to give the treasurer of the fund £20 towards clearing off the deficit on the building account. Now that they had opened a donation list, he hoped the continuation of the building was not going to be long delayed. He would appeal especially to the Old Hulmeians not to forget their debt to the School. At Chetham's College, whose old boys were certainly not so well off as the old boys of Hulme, £15,000 had been very speedily raised for a similar object, and that very largely owing to the activity of old boys. He hoped Hulme Grammar School would not fail to do the same.

On the motion of Mr. H. A. HEYWOOD, seconded by Mr. H. WORRALL, a hearty vote of thanks to Mr. Stewart Garnett was carried by acclamation.

The prize winners were as follows:—

### The New Hall.

Some further particulars about the building materials of the new hall may be of interest. The red facing bricks and terra-cotta are from Ruabon, and the glazed bricks from Buckley near Chester. The red stone corbels and the carved shields are from the Old Mill Quarry at Rainhill, near Liverpool, from the lower Bunter sandstone. The same beautiful stone is used for the pedestals and coping at the entrance. The stone staircase is in Blue Shepley stone from the Shepley quarries near Huddersfield. The roofing slates come from the Honister quarries in the Lake District. The fireproof floors are by Homan and Rodgers, London and Manchester, and the steel casements and wrought-iron electric-light fittings were supplied by Humphries, Jackson, & Ambler, Manchester.

The circular porch is by the Van Kammel Revolving Door Company, London. The terrazzo floor in the entrance was laid by J. and H. Patteson, Manchester. The heating is by C. N. Haden & Sons, Manchester, the wood block floor by Ellis Geary & Co., London. The carving of the shields was done by Mr. Miller, of Earp, Hobbs, & Miller. The general contractors were Messrs. C. H. Norman & Son, Manchester; the consulting electrical engineer, Mr. W. R. Walton, A.M.I.E.E.; and the architect, Mr. W. Cecil Hardisty, F.R.I.B.A., to whose kindness we are indebted for the above details.

## The Athletic Sports.

The Annual Sports were held as usual after the prize-giving on July 27th, and were again favoured by fine weather. There was an excellent attendance, and good contests were seen. The House Championship was easily secured by Dalton House with 111 points, and the successful house became the first holders of the handsome shield presented by Mr. Henry Worrall as trophy for the athletic primacy. The Gaskell Challenge Cup for open events was taken by F. Blaikie (Dalton), winner of the half-mile, hurdles, and broad jump, and second in the 100 yards, high jump and lacrosse ball throwing—a very good all-round record. The Cardwell Cup for under 16 events was won by W. H. Moss (Gaskell) with the 100 yards and hurdles, and a third place in the quarter-mile. T. Hough (Dalton) won the Donner Cup with the hurdles and 100 yards under 15; G. S. Walker (Byrom) the China Cup for under 14 events.

At the close of the afternoon the athletic and swimming prizes were distributed by Mrs. Medland Taylor, to whom a hearty vote of thanks was given.

Prizes or subscriptions had been kindly given by the following, to whom our best thanks are due:—

Miss Hall, Mrs. Briggs, Mrs. Lundie, Mrs. Mee, A. Banton, Esq., J. Cardwell, Esq., W. Dent, Esq., W. H. Livesley, Esq., Prof. A. S. Peake, H. H. Ashcroft, Esq., H. Forsyth, Esq.,

### Swimming.

The Annual Swimming Sports were held at the Leaf Street Baths, on Monday, July 24th.

Ever since the change in the date of sports in 1906 the number of entries has steadily increased until this year they reached 72. This constitutes a record in the annals of the Swimming Class. Out of the 72 entries well over 60 actually took part in the races. Several close finishes were witnessed, but perhaps the closest race was the Six Lengths (open), in which Royce and Keys swam level to within a few yards of the finish, when Keys left Royce behind. The Plunge Dive was especially interesting on account of the close competition between several of the competitors. The dive was eventually won by Royce, Reed being a very near second. The interest taken in the races was greatly increased by the spirit of rivalry between the Houses. A scale of marks for certain events had been fixed by the Games Committee to decide the Swimming Championship, which was won by Gaskell House with 16 points. Gaskell won the Six Lengths (open), One Length under 14, One Length under 15, One Length under 16, Four Lengths Handicap, and Beginners' Width.

SIX LENGTHS (open): S. W. Keys (Gaskell, 6 points).

BEGINNERS' RACE, one width: R. W. Webb (Gaskell).

BEGINNERS' RACE, one length: R. Pool (Heywood). Time, 30 secs.

ONE LENGTH, under 12: A. M. Dixon (Dalton, 2 points). Time, 26 secs.

ONE LENGTH, under 13: A. W. Orr (Dalton, 2 points).

ONE LENGTH, under 14: C. A. Ginger (Gaskell, 3 points). Time, 20 secs.

ONE LENGTH, under 15: T. W. Reed (Gaskell, 3 points). Time, 18 secs.

ONE LENGTH, under 16: L. Ajderian (Gaskell, 4 points). Time, 17 secs.

PLUNGE DIVE: E. H. Royce (Byrom, 3 points).

FOUR LENGTHS HANDICAP: L. Ajderian (Gaskell).

The excellent result of the sports was greatly due to the active interest taken by Mr. Fison not only in the Swimming sports, but also in the class throughout the term.

FIRST ELEVEN v. BOLTON G.S.—July 19th. Away. Lost. Bolton batted first and scored 154, 76 of which were made by their captain. Simcock bowled well, taking 5 wickets for 64. We found their slow and "googly" bowlers very difficult, and only totalled 52 (Crawford 11, Caswell, G. E., 9, Bevan 12).

FIRST ELEVEN v. STOCKPORT G.S.—July 22nd. Away. Lost. Stockport lost 6 wickets for 39, but their tail wagged well, and brought the score to 100. Crawford took 4 wickets for 26, and Simcock 3 for 23. We totalled 69, Irwin playing a very good innings of 32.

SECOND ELEVEN v. BOLTON G.S. SECOND.—July 19th. Home. Won. Bolton 69. School Second 140 for 6 wickets (Wade, F., 35, Palmer, C. W., 26, Wyatt not out 31, Irwin, S., 24).

SECOND ELEVEN v. STOCKPORT G.S. SECOND.—July 22nd. Home. Won. School Second 133 for 5 wickets (Palmer, C. W., 39, Wyatt 15, Keys 59). Stockport 31. Wickets: Lowther 5 for 21, Keys 4 for 6.

## Association of Old Hulmeians in London.

A smoking concert was held on October 18th at "Ye Old Cheshire Cheese," and officers for the coming year were elected. The post of honorary secretary, vacant by the resignation of R. H. Pearson, was filled by the election of Montague Pearson, and G. Youatt was re-elected honorary treasurer. The annual dinner will be held on Friday, January 12th, and Old Boys who are likely to be in London on that date are invited to send in their names to M. Pearson, 77, Boyne Road, Lewisham, S.E., who will also be glad to know of any Old Hulmeians coming to reside in London.

## Old Hulmeians' Games Club.

The Annual General Meeting of the Old Hulmeians' Games Club was held in the School on Wednesday evening, September 13th, Dr. Hall presiding. There were 57 members present. The minutes of the previous meeting having been read and confirmed, the officers for the ensuing season were elected and the fixtures read. Owing to the unavoidable absence of the treasurer, the income and expenditure account and balance-sheet (which will be found at the end of this number) for the year ending August 31st, 1911, were read and explained by the General Secretary, and duly passed.

A discussion followed as to the advisability of discontinuing free admission to the Lacrosse ground on production of the fixture card, and of issuing an admission card instead on receipt of the current year's subscription. It was resolved that this was a matter for the Lacrosse Committee to decide, and accordingly power was given this Committee to alter the rule if it thought fit.

It was with great regret that the meeting heard Mr. B. Muth make known his desire to retire

from the position of Honorary General Secretary. Mr. Franklin ably expressed the feelings of the meeting when he declared that the best thanks of all were due to Mr. Muth for the generous and invaluable services he had rendered to the Club during the ten years he had acted as Secretary. The vote of thanks having been seconded, the meeting heartily expressed their appreciation of the services Mr. Muth had rendered.

A committee was elected to discuss the desirability of forming an Old Boys' Association, the meeting being of the opinion that this was a matter which could be best examined in that way.

A vote of thanks to Dr. Hall for kindly presiding brought the meeting to a close.

A successful smoking concert was held at the Albion Hotel on December 9th, Mr. S. R. Oddy in the chair.

The Old Hulmeians' dance will be held, for the first time, in the School on December 20th.

## Old Hulmeians' Football.

The First Team began the season by beating our old rivals, Worsley Wanderers, by the only goal, in a friendly match. Then came a rather disheartening series of defeats. The first two league matches were lost, the corresponding games last season having yielded us 3 points. The Cup Tie, on a neutral ground, ended disastrously for us by 0-7. With all respect to our opponents, Liverpool Marine, it must be said that the score does not in any way indicate the game. Five weeks' rest followed, broken only by a solitary friendly, which was drawn. This rest seems to have worked wonders, for on resuming our league programme we tackled Heaton Chapel, who were at the head of the league, and trounced them to the extent of 4-0. Following up this success a weak eleven played a drawn game at Bolton with Wyresdale. With a keen team, working well together, let us hope that instead of being next to bottom the close of the season will find us very much nearer the top.

Accidents and matrimony have robbed us of several of our leading players. The positions have, however, been well filled, and all seems to be running smoothly at present. C. A. Morrison has returned to us after twelve months' absence, and his presence at centre is appreciated by all in the field, save his opponents. Special mention might also be made of F. F. Dawson and P. Thornley at outside and inside left respectively; young and new to the team, both have helped to make the forward line the strongest part of a hard-working team.

The Second Team opened their programme with a couple of "friendlies," both of which were lost. It was therefore a great surprise to all when the first league match saw the Old Boys winners by 6-1. The other matches have been very evenly contested. Though the Broughton result was against us, we were, if anything, the better side in the first half, but fell away in the second.

The team on the whole, considering the changes, has done very well, and much better than was expected. They should make a good show for themselves during the remainder of the season. In J. H. Clarke, a new member we have found a good and hard-working forward, who is certainly qualified for a trial on the first team at the earliest opportunity. The defence is the same as last season, and W. R. Brewer is captain.

## Old Hulmeians' Lacrosse, 1911-12.

The Old Boys took the field against Cheadle Hulme in the first league match of the season with somewhat gloomy prospects. George Buckland, Hobbins, Clegg, and Harrison were all missing. The clouds lifted when George Buckland turned out again, and the drawn game with Cheadle Hulme was followed by comfortable victories over South, Heaton Mersey, and Albert Park. The Stockport match was unfortunately lost, and that with Eccles drawn.

On the defence A. F. Cooper, though kept off the team for some weeks through illness, has greatly improved, and L. S. George has quite fulfilled expectations and made an excellent attack.

Albert Park are to meet the Old Hulmeians in the first round of the Senior Flags. We are looking forward to a share in the final, and the flags we hope for.

Eleven league matches have been played, 8 won, 1 lost, and 2 drawn; 111 goals scored for, and 70 against.

The A Team also began their season under depressing conditions, for vacant places on the First mean a drain on the reserves. A very good team has been built up, however. They have played hard and well, winning 5 and losing 3 of the 8 league matches, with 83 goals for and 51 against; not a very good record, perhaps, but certainly not a poor one. They easily beat North Manchester 1st in the second round of the Junior Cup, and if they can stick together should again figure in the final, and we hope win the trophy. Paul promises well as defence man, and O. Needham has the makings of a first-class attack.

The B Team have played 10 matches, winning 6 and losing 4, by 96 goals to 86. They have a good goalkeeper and excellent captain in W. Hulme, who hardly falls short of Kalisch in enthusiasm. We much regret that illness has kept the last-mentioned out of the team. The attack has been greatly strengthened by Linfoot, H., and Blaikie, F.; G. C. M. Jones on the defence shows very good form. A keen team has been made up, and success is sure to follow.

The C Team have got into low water, and at present cannot raise a side. A word of praise is due to H. Cardwell, W. D. Woods, E. H. Livesley, and others for sticking to the team as they have, but a record of 3 played, 3 lost, 15 goals for and 45 against, is not very encouraging.

v. Stockport Grammar School .....	Won	9—1
v. Warrington Grammar School .....	Won	4—0
v. Bury Grammar School .....	Lost	4—12
v. St. Bede's College .....	Lost	1—5
v. Bolton Grammar School .....	Won	5—4

### NOTES.

The first and second elevens are again having unsuccessful seasons, although distinct improvement can be noted as time advances. In both teams the chief weakness lies at forward and full-back, with a natural consequence that a great strain has been thrown on the half-backs.

In the first team Heaton has retained his excellent form in goal. Keys and Travis are a slow and very erratic pair of backs; the latter seems to have forgotten how to kick the ball. At half Ravald works very hard and with considerable success, and C. A. Humphries sticks to his man unflaggingly through the game. Holmes works hard, but has days when he can do hardly anything right. Cattrall tries hard to infuse some skill into the forward movements. Murphy should use his physical advantages more, and remember that he has a head and a pair of shoulders. He has often caught the opposing backs napping, and scored some good goals. Hough parts with the ball too soon. He should use his skill in footwork to beat the opposing half. Lowther is slow, but improving. His chief

fault lies in getting rid of the ball before being challenged by the opposing half. His shooting, generally, is weak. Goodwin is improving rapidly, but is handicapped by lack of speed. The team should try to find out in what consist the excellencies of its opponent. *Fas est et ab hoste doceri.*

The second team would do better with more "go." Wright is sound in goal, Humphries and Banton work hard at half. Beck has perhaps shown most improvement forward.

### FIRST TEAM REPORTS.

v. MACCLESFIELD GRAMMAR SCHOOL.—Saturday, October 7th. Home. Lost, 2—12.

We lost the toss and kicked off with a slight wind. We were the first to press, but were soon met with a strong defence. When their forwards started, our defence had hard work in holding them, and after about ten minutes play their outside left scored with a fast ground shot. After about half an hour Travis had to retire, so we were left with only ten players. Keys went back, and our forwards were thus weakened. Half-time 1—5. In the second half Macclesfield played even better than in the first and scored repeatedly. From a breakaway Murphy scored for us. After the game the teams were kindly entertained at tea, provided by the Head Master. Goalscorers: Murphy, Cattrall. The team was as follows: Goal, Heaton; backs, Travis, C. H. Caswell, G. E.; half-backs, Holmes, F. E. Ravald, Humphries, C. A.; forwards, Hough, T., Murphy, Cattrall, Lowther, Keys.

v. BOWDON COLLEGE.—Wednesday, October 11th. Away. Lost, 2—8.

We won the toss and kicked up-hill with the sun at our backs. Bowdon's forwards broke away, but were soon sent back. The game was then pretty even, but we suffered from lack of an outside left, Goodwin having failed to turn up. Bowdon were the first to score, but we soon equalised from a magnificent shot by Lowther. Just on half-time our opponents scored a second. Half-time, 2—1 against. In the second half we did our best to keep our opponents out, but their bulk told, and they scored time after time. Murphy shot a good

goal for us, and Heaton played a fine game in goal. Afterwards we were kindly entertained to tea by the College. Team: Goal, Heaton; backs, Keys, Caswell, G. E.; half-backs, Holmes, F. E., Ravald, Humphries, C. A.; forwards, Hough, Murphy, Cattrall, Lowther. Goal scorers: Lowther, Murphy.

*v.* STOCKPORT GRAMMAR SCHOOL.—Saturday, October 21st. Home. Won, 9—1.

We won the toss and kicked with wind and sun in our favour. We at once attacked, but were very feeble in front of goal. Eventually we scored, and kept more or less in their half till the interval. Half-time, 4—1. In the second half we improved considerably, and kept up the pressure until the end. Murphy scored 5 goals. The team was as follows: Goal, Heaton; backs, Caswell, G. E., Keys; half-backs, Holmes, F. E., Ravald, Humphries, C. A.; forwards, Hough, Murphy, Cattrall, Lowther, and Goodwin, J. G.

*v.* WARRINGTON GRAMMAR SCHOOL.—Saturday, November 11th. Home. Won, 4—0.

We lost the toss and kicked against the sun. We soon pressed, but were driven back. Play was mostly in midfield, but on the whole we had the best of the game. Ravald scored a fine goal for us, and soon afterwards Cattrall increased our lead to two. Half-time, 2—0. In the second half Warrington pressed and kept our defence busy. Play remained pretty even until the latter stages of the game, when we added two more to our score. Goal scorers, Irwin (2), Ravald, and Cattrall. The team was as follows: Goal, Heaton; backs, Keys, Caswell, G. E.; half-backs, Murphy, Ravald, Humphries, C. A.; forwards, Hough, Irwin, S., Cattrall, Lowther, Goodwin, J. G.

*v.* BURY GRAMMAR SCHOOL.—Saturday, November 18th. Home. Lost, 4—12.

We lost the toss and kicked with a slight wind. Our opponents soon pressed, but for a time could not get anywhere near our goal. They eventually scored and soon after added another two more goals. Towards the end of the first half Murphy scored for us, and immediately after the kick off Lowther added another. Half-time, 2—3. In the second half our opponents resumed their own positions, which they had changed, and pressed us hard. They

scored repeatedly, Heaton having no chance against their inside right. We, however, added two more goals before the final whistle. Goal scorers: Murphy, Lowther, Holmes, Cattrall. The team was as follows: Goal, Heaton; backs, Travis, Keys; half-backs, Holmes, F. E., Ravald, Humphries, C. A.; forwards, Hough, T., Murphy, Cattrall, Lowther, Goodwin, J. G.

*v.* ST. BEDE'S COLLEGE.—Wednesday, November 29th. Home. Lost, 1—5.

We were greatly weakened in the forward line by the absence of Lowther. Our opponents soon pressed, but the defence was strong enough to hold them. After 20 minutes' play Murphy gave us the lead with a fine run through. We quite held our own till the end of the half, when Travis put through for them, and their centre scored with a fine shot. Half-time, 1—2. In the second half their advantage in weight began to tell, and our defence did well in preventing them from scoring more than three. Team: Heaton, Travis, Keys, Holmes, F. E., Ravald, Humphries, C. A., Hough, Murphy, Cattrall, Ashworth, Goodwin, J. G.

*v.* BOLTON G.S.—Wednesday, December 6th. Away. Won, 5—4.

*Captain*, E. Simcock. The usual team has been: Wright, A. M. (goal); Caswell, G. E., Sutton, B. (backs); Banton, A. L., Humphries, N., Lundie F. L. (half-backs); Irwin, S., Beck, L., Holden, W. L., Simcock, E., and Walker, G. S. (forwards). Ashworth, F., Allison, J. K., and Booth, E. V., have also played.

## THE SAMUEL JONES SHIELD COMPETITION.

Half of the Competition is now over, and Byrom have a good lead of 27 points to Dalton's 19. It is still possible, however, for the order of the two leading houses to be reversed

by next term's results, and we look forward with interest to a tight struggle.

A proposal to play 1st and Under 14 teams instead of 1st, 2nd, and 3rd was unanimously adopted at the beginning of the season, and the result has, we think, fully justified the change. The Under 14 matches have been more evenly contested, and have produced better football than the 2nd and 3rd matches of last season.

Below we give the teams which have usually represented the Houses, and the results of the matches played:—

#### BYROM HOUSE.

*First Team*: Wright, A. M., Royce, Caswell, G. E., Lundie, Humphries, C. A., Humphries, N. S. A., Dyson, Irwin, Catrall, H. W. (*captain*), Lowther, Beck.

*Under 14 Team*: Willing, F., Nesbitt, L., Walker, G. S. (*captain*), Wright, G. L., Barr, Mills, Dent, Fox, Booth, Bateman, Hobson.

#### DALTON HOUSE.

*First Team*: Neill, G. W., Travis, Ravald (*captain*), Sutton, B., Holmes, F. E., Booth, E. V., Heaton, McAdam, Hough, T., Sandiford, F., Holmes, J. W. Hopwood.

*Under 14 Team*: Woollam (*captain*), Norris, Jones, H. O., Neill, D. A., Orr, A. W., Orr, C. J., Marson, Box, Dixon, Wade, Watkinson, F. A. Nesfield, F.

#### GASKELL HOUSE.

*First Team*: Ray, Reed, Keys, Briggs, T., Briggs, R. W., Hough, F., Brooks, Simcock, Murphy (*captain*), Elly, Goodwin, J. G. Ginger, Pidd.

*Under 14 Team*: McGeoch, Barrow, Baldwin, Flinn, Sheard, Moss, Lord, Land, Elliott (*captain*), Briggs, J. E., Gates. Sutton, L.

#### HEYWOOD HOUSE.

*First Team*: Parkes, Cox, Ashworth, Palmer, W. H., Banton (*captain*), Dorrington, Palmer, C. W., Campbell, Allison, J. K., Hurst, Williams. Pool.

#### FOOTBALL HALF-HOLIDAY LEAGUE.

Eight rounds have been played up to the time of going to press. Heywood stand first with 61 points, and Gaskell runs Dalton close for second place. An unsatisfactory feature is the number of walk-over wins in C team matches, of which only one has actually been played. The competition will be continued next term, and we hope that House Committees will do something to remedy the slackness in the C teams.

## LACROSSE NOTES.

It is pleasant to record the good progress the game is making. The handsome new flags have given the House matches the necessary impetus, and the games played, so far, have been splendidly contested. The quality of the play has also shown a marked advance. There is, however, something very unsatisfactory about the side games arranged on match days. Boys will never have a better opportunity to learn how to handle a 'crosse properly, and the sides games between the Houses ought to be the practice matches for the games in the Flag Competition. All boys ought to take advantage of the splendid opportunity the game offers. Of the eight foreign matches played this term seven have been won and one lost. Our first game against Stockport C was an excellent one, both sides playing 'crosse quite up to the best school standard. The second game against the Old Boys' C was won mainly owing to superior numbers, the Old Boys being short-handed.

Against the Manchester Technical School, both sides played hard, and a victory was only secured after two strenuous forty minutes. Ravald and Murphy on the defence and Davis and Neill on the attack played conspicuous parts. Our return game with the Technical School, played on their ground, which was in a very heavy condition, was lost. The team played well, but for this occasion the Technical School had a team both too strong and too heavy.

Three second team games have been played against Chorlton Grammar School and each have been won. The following is the School First Team: Goal, J. Mason; point, F. E. Holmes; cover point, L. A. Ravald; third man, C. H. Travis; wing defences, C. W. Murphy and R. W. Briggs; centre, G. W. Neill; wing attacks, F. W. Caswell and F. G. Sandiford; third home, L. B. Davis; second home, H. W. Catrall; first home, C. W. Palmer.

## FIRST TEAM REPORTS.

v. STOCKPORT C.—Saturday, September 23rd. Home. Won, 14—9.

Mr. Barber played for us. The ground was soft and slippery, and a thin drizzling rain was falling. Stockport were the first to score, but it was not long before we equalised. Play up to half-time was very even, both sides scoring almost alternately. Half-time score 6—5 against. After the re-face Stockport added two more goals to their score. For the rest of the game the School had most of the play, equalising and running out winners by 14—9. The team was as follows: Mason (goal), Holmes, F. E. (point), Dorrington (cover), Travis (third man), Mr. Barber and Murphy (defence wings), Neill (centre), F. Caswell and Hurst (attack wings), Davis (third home), Catrall (second home), Briggs, R. W. (first home).

v. OLD HULMEIANS C.—Saturday, September 30th. Home. Won, 16—4.

Briggs and Sandiford played for the Old Boys, who had only seven men. They were the first to score, but before long Palmer equalised with a good shot. Half-time score 8—2 for us. The rest of the game was very one-sided, the Old Boys scoring two more goals to our eight.

The team was as follows: Mason, Holmes, F. E., Dorrington, Travis, Murphy, Neill, Caswell, F., Cattrall, Davis, Palmer, C. W.

*v.* MANCHESTER TECHNICAL.—Wednesday, October 25th. Home. Won, 15—9.

Our attacks went off with a rush, and in the first five minutes scored three goals. The Technical next attacked, and after pressing hard for a short time opened their score. During the rest of the first half the School did most of the scoring, leading at half-time by seven goals (9—2). After crossing over our opponents improved, but were not able to score more than two until the last ten minutes of the game, when they scored five goals in succession, making the final score 15—9. The team was as follows: Mason, Holmes, F. E., Ravald, Travis, Mr. Barber, Murphy, Neill, Caswell, F., Sandiford, Davis, Cattrall, Palmer, C.

*v.* MANCHESTER TECHNICAL.—Wednesday, November 22nd. Away. Lost, 10—16.

Our opponents' ground was in very bad condition on this occasion, both goals being surrounded by thick mud. We were the first to score, but the Technical soon equalised. We scored two more, but our opponents then began to press hard. They added three to their score and took the lead, which they kept for the rest of the game. Half-time 6—9 against. After the re-face our attacks worked harder than in the first half, but were unable to get the lead. The team was as follows: Mason, Holmes, F. E., Ravald, Travis, Murphy, Mr. Barber, Neill, Caswell, F., Cattrall, Davis, Sandiford, Palmer.

*v.* ROCHDALE B.—Saturday, December 2nd. Home. Won, 35—2.

Our opponents arrived with six men. We gave them five substitutes and played 11 a side. The team was as follows: Mason, Holmes, F. E., Ravald, Travis, Murphy, Hurst, Neill, Caswell, F., Cattrall, Davis, Sandiford, Briggs.

## SECOND TEAM MATCHES.

*Captain*, R. Lowther. The usual team has been: Lowther, Nesbitt, R., Palmer, W. H., McAdam, Briggs, J. E., Simcock, Goodwin, I. D., Powell, T. D. M., Banton, Jones, H. O., Walshaw, N., and Holden.

## THE LACROSSE FLAGS.

The contest for the new trophies and the House Championship in lacrosse has produced some keen struggles. So far only two out of this term's rounds have been played, with the results given below. Dalton lead with 18 points. The usual teams have been as follows:

### BYROM HOUSE.

*First Team*: Mason, Nesbitt, R. M., Caswell, G. E., Lowther, Royce, Storey, Davis, L. B. (*captain*), Caswell, F., Dent, Cattrall, H. W., Humphries, N. S. A., Walker, G. S.
