School Notes and News.

We say farewell this term with much regret to Mr J. Dorrans, who is retiring after nearly 30 years' service as instructor in woodwork. He came early in 1891, when manual work was first introduced as an optional subject, taken out of school hours. His work was carried on for several years in the present Scouts' room, until more commodious quarters for woodwork were provided in the basement of the New Hall. Since the School came under the Board of Education woodwork has been taken as part of the regular time-table in the junior school, and the Preparatory Department has also shared in Mr. Dorrans' instruction. Of the results of his efficient teaching it would be hard to give an adequate

account, or to estimate how many Old Hulmeians owe to him their skill in carpentry and what may be described as intelligent handiness. An idea of the good style of work done in the manual room has been obtainable from the exhibitions of woodwork on view there on public occasions. Mr. Dorrans' great practical skill and resource have been ever at the service of the School in many other ways; in the laying-out of the running-track at the Sports, supervision of the games materials, in the staging of School plays, and latterly at the Cadet camps and on the allotments. We may also refer to the active part he has taken for many years in the work and camps of the Hulme Lads' Club. We shall miss him at every turn, and he is assured of our heartiest good wishes for his well-earned leisure.

Several other changes in the staff call for notice here. Dr. Mann and Mr. Lloyd Roberts left us at Easter, and their work this term has been taken by Mr. A. Schaerli and Mr. S. Chatburn.

Mr. A. A. Dallmann left us at Whitsuntide to take up a post at Mexborough Secondary School, and readers of this Magazine will not need to be reminded how much he did both in the classroom and in the Natural History Society to arouse an interest in nature, especially botany and wild life. We owe to him many interesting pages on the subjects which he treated with so much charm.

His place has been taken by Mr. J. W. D. McConnell, M.Sc. (Armstrong College, University of Durham), late trained Certificated Assistant in botany and elementary science under the Wallsend-on-Tyne Education Authority.

Our best wishes go also with Miss D. H. Gordon, who has been with us since the beginning of 1918, and has taken a mathematical post at Macclesfield High School; Mr. J. Thiéry, who is going into business, and Mr. T. Tyson, who has been appointed Lecturer in Geography and History at Wigan Technical School.

Mr. A. L. Powell has been appointed Senior Tutor at Hulme Hall, Manchester University.

A Senior Secondary School Scholarship (Manchester Education Committee) of £15 has been awarded to A. H. L. Perry.

J. Lord (Christ's College) has taken a Second Class First Division in the History Tripos, Part I., Cambridge University.
Manchester University Degrees:—

B.A., Honours School of Classics: C. A. Humphries in the First Class.

B. Com.: D. R. Hudson, who has passed in Banking and French and completed the course.

B.Sc.Tech. (Applied Chemistry): G. M. Timmis and L. B. Timmis in Second Division.

University of Wales, B.A. with First Class Honours in Philosophy: Harold Roberts (Bangor University College).

Intermediate and other examinations (Manchester University):—

Intermediate B.A.: R. W. Briggs (Modern History).

Intermediate B.Sc.: F. W. L. Heathcote, G. Marsden.

First M.B. and Ch.B. (Part III.): F. R. Lockhart, E. A. Marson, R. Walshaw.

B. Com. (Geography and Political Economy): W. W. Land.

Intermediate B.Sc.Tech.: L. Edmondson, A. R. Johnston, and R. L. Thomas.

Intermediate B.Sc.Tech.: L. Beck, H. O. Evans, E. F. Muller, and J. G. Sherratt have passed in Physics and Chemistry and L. Beck also in Geology.

Third M.B. and Ch.B.: N. S. Craig.

D. R. Hudson has obtained the first Cobden Prize (Political Economy) at Manchester University.

Mr. Douglas Knoop, M.A. (Manchester) has been appointed to the Sir Ernest Cassel Readership in Commerce in the University of London, with special reference to the organisation of industry and trade in the United Kingdom.

W. Greenup (Admiralty) has received the M.B.E. for war work.

The Old Hulmeians War Memorial Fund has now reached a total of £1,350, and good progress is being made in the provision of a memorial tablet.

A Second Eleven Cricket Cap has been awarded to G. S. Brown, in recognition of his play in the First Eleven match *v.* St. Bede's.

In the Urwick Cup swimming competition we had a strong team, and after winning the heat against the Manchester Grammar School we were beaten by six inches in the final against Manchester Central. Our representatives were Lea, Berry, Jones, and Cooper, S. R.

The Swimming Sports will be held on Monday, July 26th.

The School prizes and certificates will be distributed on the afternoon of July 27th.

Midsummer Term ends on Thursday, July 29th, at noon, and Michaelmas Term begins Tuesday, September 14th, at 9 o'clock.

Our thanks are due to the following contributors of School news: M. C. Nelson, R. C. Swinn, A. G. Campbell, and J. C. Beggs.

We acknowledge with thanks the receipt of *Ulula*.

Old Hulmeians can subscribe to the *Hulmeian* by sending 1s. 6d. annually to Mr. J. A. Barber at the School. The three numbers are sent post free in December, April, and July.

BIRTHS.

BARRETT.—April 14th, at Newholme, Westwood Avenue, Timperley, to Mr. and Mrs. Frank Barrett, a daughter.

BEVAN.—June 20th, at 57, Hawthorne Road, Chorlton-cum-Hardy, to Mr. and Mrs. W. Bevan, a son.

BLAMEY.—April 11th, at Merton, Ley Hey Park, Marple, to Mr. and Mrs. K. T. Blamey, a son.

BRISTER.—June 26th, at Kobe, Japan, to Mr. and Mrs. J. F. Brister, a daughter.

BUCK.—July 12th, at Athelstan, Fog Lane, Didsbury, to Mr. and Mrs. Wm. M. Buck, a daughter.

LINGARD.—May 12th, at Bridgeholme Green, Chinley, to Mr. and Mrs. William C. Lingard, a son.

LIVESLEY.—July 3rd, to Mr. and Mrs. W. A. Livesley, of 10, Leigh Road, Hale, Cheshire, a son.

MARRIAGES.

BRITTAİN—CROSSLEY.—June 9th, at Bramhall, Samuel Taylor Brittain, of Whalley Range, to Gladys Beryl Crossley, daughter of Mr. and Mrs. G. Crossley, of Lyndystra, Bramhall, Cheshire.

BROWN—SEDDON.—April 21st, at St. Clement's Church, Chorlton-cum-Hardy, J. Harold Brown, of Chorlton-cum-Hardy, son of the late Geo. Hy. and Annie M. Brown, to Edith, elder daughter of Edward H. Seddon, Chorlton-cum-Hardy.

BUCKLAND—NEWMAN.—July 3rd, at the Manchester Cathedral, George Frederick Buckland, of Old Trafford, son of Mr. and Mrs. James E. Buckland, to Frances Newman, of Chorlton-cum-Hardy, only daughter of Mr. and Mrs. Arthur Newman.

FLETCHER—GREGORY.—June 9th, at Flixton Parish Church, by the Rev. Mark Fletcher,

M.A., vicar of Long Benton, Newcastle (uncle of the bridegroom), Norman, youngest son of Mr. and Mrs. Zeb Fletcher, of Cavendish House, Blackpool, to Dorothy, eldest daughter of Mr. and Mrs. John Gregory, of Holly Bank, Flixton.

FOX—BLAMEY.—June 2nd, at the Unitarian Church, Wilbraham Road, Captain Gilbert Wheaton Fox, M.C., 6th Batt. Manchester Regiment, youngest son of Mr. and Mrs. Charles H. Fox, Demesne Road, Whalley Range, to Noel, younger daughter of the late J. M. H. Blamey, of Hale, and Mrs. Blamey, Trelawny, Chorltonville.

DEATHS.

BEVAN.—Killed in action near Le Cateau on October 20th, 1918, Harold John Hilton Bevan, aged 19 (at School 1911-16).

MOSS.—April 30th, at Hong Kong, Denis Kebir Moss (of Alex. Ross & Co.), in his 38th year (at the School 1895-1897).

"Hopping."

Near the mouth of the River Tees there are, as most people know, many blast-furnaces and ironworks.

In addition to the large quantities of ore smelted in this district, there is a correspondingly large amount of that troublesome by-product slag produced. The successful removal of this slag is one of the iron smelter's greatest problems. Large quantities are used in making roads, and the powdered varieties constitute the allotment-holder's basic slag. Many other things are made from this substance, among them slag wool, insulators, and brooches. Yet all these products do not sensibly decrease the slag output; so the Cleveland iron smelters had to look for a dumping-ground, and they decided to use the sea. Thus there is a "slag-boat" service down the Tees; numbers of tugboats are employed in taking enormous slag-laden barges (known locally as "hoppers") out to sea, where it is deposited.

These barges are made of sheet iron throughout; they are 110ft. long, 29½ft. broad, and 16¾ft. deep. The bottom is made on a trap-door principle, so that the slag can be let through the bottom of the vessel by operating a lever on the deck. At the stern there is an ordinary barge tiller and a little wooden hut to protect the bargeman from wind, rain, and spray. The boat is kept afloat by air tanks under the decks.

We left a delightful little wharf by Middlesbrough at 6-45 a.m. and proceeded down stream at the exciting speed of about five knots. There were many interesting things to be seen along the river—the enormous transporter bridge, dockyards and slipways, where imaginative painters were camouflaging ships, submarines, and submarine chasers. When we reached the mouth of the river two minesweepers were working in front of us, while a destroyer, two submarine chasers, and a submarine were playing "cat and mouse" round them.

The "first mate" told me the reason for the presence of these "hounds of war"—this was in 1918.

Some time previously several German submarines set out and mined the waters round the mouth of the Tees. One of the slag tugs happened to strike a mine and got blown up. Naturally, the bereaved iron people felt hurt about it, and told the Government that it must not occur again. So the Admiralty sent down some destroyers and sub-chasers, with the result that very soon three or four German submarines were to be seen anchored in the Tees, with their happy crews kicking up their heels in an internment camp.

When we got about seven miles out to sea we sighted the police-boat, on which is an official who directs the slag people where to deposit their cargo—so that the bottom of the North Sea will not become hilly, presumably.

The slag in the two hoppers we had in tow was fresh from the furnaces, some of it being still red-hot. When the trap-doors were opened and the "hopping" process began (*i.e.*, the depositing of the slag) there was a very loud thud and an enormous cloud of steam, slag, and spray shot up through the hopper into the air to a height of 60ft. or 80ft., owing

to the violent explosion caused by the hot slag coming into contact with the water. Occasionally the hoppers are damaged by the explosion. When the second lot was deposited the wind carried the dust right on to the tug. The engine had been playing rather a monotonous tune on the way out, but when this dust got into the cranks and pistons the melody became what musical people would call "vivace."

H. J. S.

Íápyx heals the Wounded Aeneas.

(Virgil xii., 420-429.)

Íápyx with this lotion bathes the wound,
Its powers unknown to him, and suddenly
All pain the body quits; the flow of blood
Is stanch'd, and now by this mysterious hand
The arrow leaves the wound, with no man's
help,

And former strength to Aeneas returns.

Íápyx cries, "Bring armour speedily;
The hero waits! Who dares to loiter now?"
(And he himself is first to raise their ire
Against the traitorous Etruscan foe)

"This deed is not performed by human powers,
Nor master arts of my right hand serve thee.

Oh, Prince! a greater god is working here
To place thee on the field for greater deeds."

S. K. APPLETON.

The Library.

Selections from Early Middle English, 1130-1250, edited with Introductions and Notes by Joseph Hall, M.A., D.Litt. Part 1: Text; Part 2: Notes. *Clarendon Press, Oxford.* These two volumes, presented by the author, are a most interesting and welcome addition to our Students' Library, and we offer our best thanks to the donor for his gift. We would like to congratulate Dr. Hall on the completion of another work of great labour and research on his favourite subject.

Our thanks are also due to Mrs. W. E. Turner for the gift of a handsome set of Goethe's selected works, 36 vols. in 18, and Rollin's Ancient History, 8 vols.; and to a donor, who wishes to remain anonymous, for cheque for £3. 3s. for the purchase of books.

The H.G.S. Cycling Club.

President: The Head Master. *Vice-president:* Mr. P. Toll. *Captain:* J. C. Beggs. *Hon. Secretary:* M. W. Flewitt.

April 14.—Junior Run, Brooklands and Cheadle. The weather was very poor, likewise the attendance.

April 21.—Senior Run, Arley Green. Although raining until 1-15, the weather cleared up later, and we had a warm run against a S.W. gale to Over Tabley, where we took a by-road to Arley. After tea by the mere we negotiated a ploughed field to the Hall, but could not obtain permission to enter. Here we obtained our first and last puncture, of which Kirkpatrick was the victim. A "rattling" run home before the wind brought us up to 35 miles. Attendance 12.

May 5.—Pott Shrigley. So heavy and continuous was the rain that out of the six who left school but four reached our destination; but the run was thoroughly enjoyable, and added 33 miles to our score.

May 12.—Junior Run in conjunction with the Natural History Society to Alderley Edge; 25 miles.

May 13.—Ascension Day. This was the first whole day's run, and was through Cheadle, Bramhall, Hazel Grove, Disley, Whaley Bridge, Kettleshulme, Bollington, Macclesfield, and home via Alderley. Four members attended, and although hampered by a S.W. gale we enjoyed the beautiful country through which we passed. We saw the Mersey estuary and the sea from the heights above Bollington. We were away from 9 a.m. to 9 p.m. and covered about 46 miles.

Whitsuntide Holidays.—Most of our enthusiastic members were absent at camp, but two had a ride in the Hayfield district on May 21st; 45 miles.

June 16.—Senior Run to Rede's Mere. Rain again, accompanied by heavy thunder showers, spoilt both ride and attendance, and forced us to spend 1½ hours in a stable near Mottram St. Andrew; 39 miles.

June 23.—Junior Run, Rostherne Mere and Knutsford. The weather kept fine and we

had a very enjoyable run, returning through Mobberley, although experiencing a puncture near Mere; 32 miles.

June 30.—Lymm, Thelwell, and Mere. For some unaccountable reason the attendance was practically negligible and the mileage had to be decreased by 10, although, except for a head wind, all other conditions were passable.

At the beginning of the term the Seniors were far keener than any other section of the Club. Unfortunately they have lost this premier position, and we hope they will regain it sooner or later.

Total distance covered on Club	
Runs	Miles 3,245
Total number of attendances on Club	
Runs	101
Average mileage per attendance	32
Number of members who have	
attended Runs	54
Average distance of Junior Runs ...	25
Average distance of Senior Runs.....	37
Total number of punctures	3
Average mileage per puncture	1,081

The Natural History and Photographic Society.

President: The Head Master. *Vice-presidents:* Mr. Dallman, Mr. M'Connell. *Hon. Secretary:* J. C. Beggs.

May 12th.—Field meeting at Alderley Edge. About a dozen members attended this meeting, four cycling and the remainder going by train, meeting at the station about 3-30 p.m. This was our first "flora" meeting, and for that purpose a diligent search was made for unusual plants, &c.

One interesting point in connection with pollination was observed among the beeches, which are very numerous. Many of the trees show staminate flowers in profusion, but an exhaustive search failed to reveal any pistillate flowers. Another "find" was a marsh violet *viola palustris*, which is rather rare, and amongst the winged denizens the Willow Warbler was conspicuous. After tea taken near the Wizard's Well we set out for the station and home.

May 20th.—Longdendale and Marple. After meeting at Broadbottom Station at 11 a.m. we began to climb the hill which leads to Mottram, and branched off into a lane which eventually reaches Glossop. This lane was full of various kinds of flowers.

Dinner was taken upon a bank in the side of which grew a tall tree containing a magpie's nest. The parent had previously discomfited a marauding cat by means of hitting him in the eyes with his wings.

Later we recrossed the Etherow, one of the head-streams of the Mersey, and climbed the opposite side to Charlesworth, whence we took the road to Marple. On this route we found a number of interesting plants, including the Golden Saxifrage, Wood Horsetail, and a profusion of the staminate Bay Willow *Salix Pentandra*. After taking tea beside a miniature waterfall we bade good-bye to Mr. Dallman, to the accompaniment of cuckoos and willow warblers.

June 26th.—Field meeting at Wilmslow and Mobberley. The cyclists and the others met at Wilmslow Station, and after sheltering from the rain for about 20 minutes took the road to Lindow Common. Although very bleak, the Common yielded some Sundew, which is rather a rarity, also Cottongrass, Crowberry, and various kinds of heather. After about an hour we took the road to Mobberley, meeting en route a large quantity of horse radish. Tea was taken beside Mobberley Brook, near Oversley, and then we proceeded to Knoll's Green, where we enjoyed Mr. M'Connell's tea (liquid) and eventually took the road to the station, passing Mobberley Church and numerous old cottages, until the station was reached about 8-20 p.m.

J. C. BEGGS.

Nature Notes.

The most marked characteristic of Manchester and surrounding district is the lack of the merry chirping of birds so prevalent in the north. This is probably due to the heavy atmosphere, as birds are sunshine-loving creatures. Another striking feature is the beauty of tree life. The lime and rhododen-

dron thrive most luxuriantly and give to the landscape—especially seen in the many public parks this neighbourhood is blessed with—that delightful forest effect now so seldom seen in busy industrial centres. Wild flowers, so common in other parts, are seldom seen in this part, which is only natural considering the ever-expanding suburbs needed for such a busy district. Only by travelling some distance out of the city do you find the usual country wayside flowers. This is, of course, most apparent to the south side of the Mersey.

J. McC.

Weather Observations.

Synopsis of Meteorological Observations for the three months ending June 30th, 1920, taken at West Didsbury at 12-30 p.m. (local time). Height above sea level, 107ft.

MEAN TEMPERATURES (UNCORRECTED).

	Max.	Min.	Dry Bulb.	Wet Bulb.
April	50·3	44·6	48·3	43·9
May	60·3	47·4	57·4	54
June	65	46·5	63·3	53·2
Summary for three months	61·5	46·2	56·3	50·4

	Dew Point.	Relative Humidity.	Barometer (Aneroid).	Total Rainfall (inches).
April	42·3	76	29·49	4·935
May	49·2	73	29·84	8·450
June	52·5	75	29·83	2·485
Summary for three months	48·0	74·7	29·53	15·870

Highest temperature, 86° Fah. Lowest temperature, 38·8° Fah. Mean temperature, 53·9. Mean range of temperature, 15·3° Fah. Relative humidity, 74·7. Number of rainy days, 59. Total rainfall, 15·870".

FRANK PAULDEN.

Old Hulmeians' Association.

DINNER.

The fourth annual dinner was held at the Grand Hotel, Manchester, on Saturday evening, April 17th, 1920.

This was intended as a re-union and renewal of the yearly gatherings interrupted by the war, and although only about fifty Old Boys and guests sat down, this had only the effect of drawing us all closer together so that a happy and very enjoyable evening was spent. It was pleasing to have Dr. Hall, Mr. Brice, Mr. J. H. Smith, and Mr. Fison amongst us once more, and to hear the latter commence his reminiscences with the old familiar phrase, "Now, boys!"

The gaps in our ranks, however, were present in our thoughts, and when the toast to those who had fallen was proposed, they carried us back to previous dinners, to scenes far different to the one before us, to the well-remembered faces of Old Boys, the memory of whom will ever remain with us. Naturally, the speeches which followed dwelt to some extent on those whom we missed; and the efforts that are being made to make the Memorial to those who have fallen worthy of the great sacrifice made were brought to the notice of those present.

The chair was taken by A. E. Rowbotham, who presided in a very genial manner, and the toast of "Those who have served" was proposed by Dr. Hall and replied to by Captain Colin Bentz. The former referred to his own experiences in the Oxfordshire Volunteers, and dwelt on the sacrifice the School had been called upon to make of so many of her best sons, the numbers of those fallen in the war reaching the high proportion of one-sixth of those serving. "The School" was proposed by H. Cardwell, and the Headmaster replied.

Concerning those who attended the dinner, it has already been said that they enjoyed themselves; they are to be congratulated for having been present, and their efforts to keep up the old associations and traditions are appreciated.

We are surprised there are so many who might have been present but who stayed away, and hope these will bear in mind the object for which these affairs are arranged—to promote and preserve the good feeling existing, or which should exist, between all Old Hulmeians, both ancient and modern. It is hoped they will help to swell the numbers at the next dinner.

Those members of the Association who have not yet paid their subscriptions for the current year are requested to send the amount due to Mr. Barber without further delay.

GOLF SECTION.

The fourth competition for the Bradbury Challenge Cup was held on the Chorlton-cum-Hardy Golf Club course on Wednesday, July 7th. Twenty-seven cards were taken out, and the subjoined 22 scores were returned:—

	Gross.	Handi-cap.	Net.
H. O. Hatton	90	- 18	= 72
W. H. Mee.....	85	- 12	= 73
S. W. Saxelby	96	- 18	= 78
S. R. Oddy.....	85	- 6	= 79
G. A. Blamey	91	- 11	= 80
W. N. Caw	97	- 17	= 80
J. A. Barber	96	- 15	= 81
K. T. Blamey	90	- 9	= 81
H. Maguire	91	- 10	= 81
R. J. Bradbury.....	95	- 12	= 83
J. S. Higginbotham	99	- 16	= 83
A. L. Swindells	100	- 16	= 84
P. M. Cooper	103	- 17	= 86
B. Brewis	91	- 4	= 87
J. I. Franklin	98	- 10	= 88
T. Fisher	110	- 20	= 90
C. H. Fox	101	- 11	= 90
B. Muth	104	- 12	= 92
F. Garner	107	- 12	= 95
J. P. Johnston	113	- 18	= 95
R. Howarth			= 96
L. E. Norbury	123	- 20	= 103

The following players did not return scores : E. S. Bury (20), J. S. Fox (16), B. W. Harvey (14), L. F. Harvey (18), J. A. Jackson (10).

Most of the competitors and a few other members of the Association took supper in the club dining-room in the evening.

S. W. Saxelby took the chair. A vote of thanks was passed to the council of the club for allowing the competition to be held over their course.

The toast of the donor of the cup, Mr. A. W. Bradbury, was duly honoured. Important business in London prevented him from being present, and R. J. Bradbury replied on his behalf.

Cadet Corps.

A large number of recruits have been enrolled since the last number of the Magazine was published, but there is still room for more, and as so many cadets will be leaving school this term, a special invitation is offered to all boys over 13 who are not in the School Scouts Troop to join this purely voluntary school movement. An appeal is made for volunteers to fill the places of those who have helped to bring some small distinction to the School by the work done by the corps.

A record number of cadets attended this year's Whitsuntide Camp, which was again held at Grange-over-Sands. Once more favoured by fine weather, except for the two days the fatigue party were trying to pitch the camp, a very good 12 days' work was got through. Colonel Moore, the Staff Officer of the East Lancashire Territorial Association, again inspected us, and seemed very pleased with the general standard of work done. He particularly spoke of the excellent way the cadets on parade went through the arms drill. Some recognition of the N.C.O.'s work in camp ought to be recorded, as the smooth working of the camp was in a large measure due to the excellent manner in which the N.C.O.'s performed their duties. Thanks are also due to Lieut. Gatley for his untiring services as Quartermaster, Lieut. Anderson for his military help, and last—and perhaps most—to Mr. Dorrans for his tremendous labours in the kitchen. What we shall do without his invaluable help another year is difficult to conjecture, but the corps would like to place on record their high appreciation of his efficient and purely voluntary help at the last three camps.

We had a visit from Lieut.-Colonel T. Blatherwick, the Officer Commanding the 6th Battalion Manchester Regiment, and his adjutant on June 18th, who came to see the unit's work at an ordinary parade. We were pleased to hear, in a few remarks he addressed to the corps, that he hopes to visit us again and is willing to help us in any way that he can. During his remarks he expressed a desire to link up the unit more closely with his battalion, to which we are already affiliated, by

encouraging cadets as they leave school to form a nucleus of a platoon, which in time may grow to a company of H.G.S. cadets.

On July 30th we shall be off again to Rowston Hutments, near Hornsea, to join other units of the Public Secondary Schools Cadet Association in camp. All efficient cadets should make an effort to be present, as the corps has some reputation to keep up at these combined camps.

The following promotions have been made this term:—

To date from April 19th: Cadet S. Johnson to be Lance-corporal.

To date from May 3rd: Sergeant R. C. Swinn to be Company Quartermaster Sergeant. Cadet A. N. Arthur to be Lance-corporal.

To date from May 27th: Corporal M. C. Nelson to be Sergeant.

A Second Proficiency Stripe has been awarded to Cadets Crompton, A. L., Leeming, F. B., Bottrill, A. L., and Bradshaw, E. C.

Conduct and Efficiency Stripes have been awarded to Cadets Jones, J. A. W., Tricker, R. E. L., Lunt, H. L., Bootherstone, C., Lymer, M. W., Jackson, R., Trafford, A. S., Rhodes, E. A., and Stott, H.

J. A. BARBER,
Cadet Captain,
Officer Commanding.

The Scouts.

WHITSUNTIDE CAMP.

Leaving Exchange Station on Thursday, May 20th, we had a pleasant railway journey to Menai Bridge, North Wales, where we detrained and prepared to trek to Beaumaris, about 4½-5 miles away. After lingering on the suspension bridge we reached the far side of the straits and Anglesey about 4 p.m.

Along the good road by the side of the straits we took life easily and rested many times by springs, where we filled our water-bottles. The road was very pretty, and the odour of violets and primroses and bluebells was wafted to us on a gentle breeze. As we

approached Beaumaris we began to feel tired, for on our one cart we had kitbags and camping kit for 18 persons. We soon had a pleasant shock—the First Anglesey Boy Scouts turned out to meet us with their trek cart and did us a right “good turn.” We were now near to Beaumaris and many people turned out to see us.

Sir Richard W. Bulkeley had kindly granted us permission to camp in Beaumaris Castle, and we pitched our tents in the courtyard, which is half rough grass and the rest laid out in tennis courts. The castle is now in ruins and a footpath runs round the top of its ivy-covered walls.

The following day—Friday—we shifted our camp and trekked to Penmon, and here again we were allowed to camp by kind permission of Sir Richard Bulkeley. We used the marble quarries (used by pontoon sections of the R.E.'s during the war), now not worked. Near by are limestone quarries worked by Baird and Co. The Priory, which dates back for over 1,500 years, is quite close to the spot where we camped, and was, together with the neighbouring dovecote, visited by us during our stay. All the water we used in camp came from Penmon Wishing Well, a spring of very nice water some 200 yards away from the marble quarries. These quarries were interesting to the extent that the marble for Birmingham Town Hall and Menai suspension bridge was hewn from them and then the quarries were closed down.

The first two or three days were utilised in preparing the place for 10 days' occupation, and then we began our work and play in good style. On Empire Day (May 24th) an investiture was held and six of the tenderfoots at camp were sworn into the troop. On May 26th we entertained the First Anglesey Scout Troop to tea and gave them a sing-song afterwards, followed by camp fire. We all enjoyed ourselves, and so, we hope, did the Welsh boys.

On Thursday we visited Carnarvon, and we sailed from Beaumaris on the St. Trillo. Unfortunately rain spoilt the outing and we confined our Carnarvon ramble to the castle there. Although Carnarvon is in better repair than Beaumaris Castle, we preferred the latter—

with its ghost (?). On Saturday the First Anglesey Troop of Boy Scouts at Beaumaris invited us to tea, and during the afternoon the two troops played cricket on the green. On Monday we returned to Beaumaris, and on the Tuesday trekked to Menai Bridge to catch the Manchester train.

We now have back with us Mr. Eric Wilde, who held under Mr. Owen the rank of A.S.M. He has now taken over duties of secretary and treasurer, and has accepted the rank of S.M. On July 3rd a bazaar was held, and at the time of writing the extent of proceeds is not known.

In the next issue of the *Hulmeian* we are publishing a balance-sheet of general account, camp and bazaar.

For 12 days at the end of the holidays a troop camp is being held in the Lake District, and Mr. Wilde is making the necessary arrangements. Although we already have the names of over 25 boys, we should like every boy in the troop to go to camp; and ask those parents who wish their sons to go to see that their names are given in as soon as possible, as the arrangements must be made before the end of term.

Second Cooke has been promoted to Patrol Leader.

PELHAM TOLL, S.M. 165th.

President: The Head Master. *Hon. Treasurer:* Mr. J. A. Barber. *Hon. Secretary:* Mr. A. L. Powell. *Captain:* M. C. Nelson. *Vice-Captain:* R. E. Howard. *Captain of Second Eleven:* R. C. Swinn. *Captain of Under 14 Eleven:* A. G. Campbell. *House Representatives on Games Club Committee:* R. E. Howard, R. C. Swinn, A. A. Walker (Byrom); M. C. Nelson, T. R. Lea, F. B. Leeming (Dalton); A. N. Arthur, J. A. W. Jones, E. H. Stansby (Gaskell); S. Johnson, M. D. Pearson, G. A. Kemp (Heywood); C. D. Campbell, S. L. Latham, W. S. Willson (Alpha); C. B. Ackroyd, G. S. Brown, E. G. Flood (Beta). *Cricket Professional:* E. Ankin.

NOTES.

Bad weather prevented us from getting much practice at the beginning of the season, with the result that the standard of play has not come up to expectations. Apart from the good recovery against St. Bede's, we have not done very well at critical times. The batting lacks confidence and finish, and some of our best batters have been out to simple balls just when runs were needed. The fielding, too, has been very erratic—at times quite good and at others very slovenly.

Boys should learn to call for runs and to refuse calls so that misunderstandings leading to being run out are impossible.

Thanks largely to Mr. Barber's coaching, the Second Eleven has more than held its own, though it is not a strong eleven. It has, however, the advantage of several young members, and we should have some good material for the First Eleven of the season after next. Trafford is a very promising bowler who uses his head, and Hemmerdinger has the making of a first-rate batter. There are one or two boys who have not been quite good enough to get a place on the Second this year, but ought to do quite well next year.

While the Under 14 team has won most matches, the batting is poor, in spite of one or two big scores. This shows itself when good bowling is encountered. The cross-bat "swipe" is not more than occasionally successful. What is required is a good forward stroke played with confidence. Fielders should always be ready and anticipate the flight of the ball. Many runs can be saved and catches made in this way.

The Shield matches have been marked by the prominence of "Alpha" and "Beta," who now hold their own with the other Houses.

THE LIVESLEY SHIELD.

Three rounds of this competition for the House Championship in Cricket have been played, and the points gained are as follows:—

Heywood 32, Beta 24, Alpha 20, Gaskell 16, Byrom 10, Dalton 4. The results of the first three rounds are as follows (six points for 1st, four for 2nd, two for 3rd):—

June 2nd.—ALPHA *v.* BETA: Beta won the first, Alpha the second and third. BYROM *v.* HEYWOOD: Heywood won the first and second. DALTON *v.* GASKELL: Gaskell won the first and second, Dalton the third.

June 16th.—ALPHA *v.* GASKELL: Gaskell won the first, Alpha the second and (w.o.) third. DALTON *v.* HEYWOOD: Heywood won first and second, Dalton the third. BYROM *v.* BETA: Byrom won the first, Beta the second and third.

June 23rd.—BYROM *v.* ALPHA: Alpha won the first and third, Byrom the second. BETA *v.* DALTON: Beta won all three. GASKELL *v.* HEYWOOD: Heywood won all three.

CRICKET LEAGUE.

The points in this half-holiday competition are as follows (down to July 16th):—

Alpha 40, Gaskell 32, Beta 24, Dalton 32, Byrom 12, Heywood 8.

CHARACTERS OF THE FIRST ELEVEN.

NELSON, C. M. (captain).—Keen, and sets a good example. A good all-round player with an excellent style.

HOWARD, R. E. (vice-captain).—A keen and safe fielder. Bats well, but has not been very lucky.

ACKROYD, C. B.—A very useful member of the team. Has bowled consistently well and is a good fielder.

BROWN, G. S.—A good fielder and steady bat. Played one particularly good innings which helped to save the match.

DOUGLAS, W. E.—Plays a straight bat, but needs to develop scoring strokes.

JOHNSON, S.—A steady bat, but has a tendency to hit across the ball. A good field.

JONES, J. A. W.—A useful change bowler and fair bat.

LEA, T. R.—Bats well and is a useful though peculiar bowler.

PEARSON, M. D.—Has improved in his fielding lately, but is too slow.

UPTON, R. G.—Keeps wicket well, but has an unorthodox style of batting which has not been very successful.

WALKER, A. A.—A vigorous hitter, safe field, and quite a useful change bowler.

AVERAGES OF THE FIRST ELEVEN.

(To JUNE 30TH.)

BATTING.

	Innings.	Times not out.	Highest score.	Total runs.	Average.
Brown, G. S.	6	3	17*	53	17.6

FIRST ELEVEN MATCHES.

v. BURY GRAMMAR SCHOOL.

May 8th. Home. Won. We batted first on a rather soft wicket, but runs came easily and we declared at 124 for eight. They went in with just over an hour to bat, but were very easily dismissed for only seven runs. Lea took three wickets for one run, and Ackroyd seven for six. Score:—

The School.

Johnson b Ainsworth	3
Upton c — b Ainsworth	6
Lea lbw b Dearden	32
Howard b Dearden	20
Nelson b Dearden	27

Pars not out	0
Extras	0

Total 7

v. ST. BEDE'S COLLEGE.

May 15th. Away. Won. They batted first, and after the first two or three batsmen were out the remainder were soon dismissed, our fielding, however, being poor. We went in to bat, and although one or two of our batsmen were unfortunately run out we were only two runs behind their score with three wickets to fall. Two wickets, however, fell immediately without any runs being scored, but Brown and Douglas added another 10 runs and put us well ahead. Brown batted consistently well, scoring 17 not out. Wickets: Ackroyd eight for 36. Score:—

St. Bede's College.

Extras	4
Total	84

v. MACCLESFIELD GRAMMAR SCHOOL.

June 5th. Home. Won. They batted first and were easily dismissed for 25. Our first wicket fell for one run and the second for three. After this, however, the runs came quickly, and we declared at tea-time with 107 for six. Wickets: Ackroyd took three for 14, Lea three for 7, and Nelson two for 4. Score:—

Macclesfield Grammar School.

Leech b Ackroyd	4
Wellings st. Upton b Lea	0
Agg c Johnson b Ackroyd	10

v. WARRINGTON GRAMMAR SCHOOL.

June 30th. Away. Lost. They batted first. Our fielding was the worst it has been this season, at least half-a-dozen catches being dropped. They were not dismissed for an hour and a half, when 69 had been scored. We started badly, the first wicket falling at 5 and

the second at 22. After the fall of the fourth wicket we had 37 runs to make and six wickets to fall. Nevertheless, our "tail" did badly and we were all out for 68. Lea took six wickets for 19.

SECOND ELEVEN MATCHES.

v. ST. BEDE'S COLLEGE 2ND.—May 15th. Home. Won. St. Bede's 16. Second Eleven: Hemmerdinger 9, Flood 3, Somerfield 0, Trafford 3, Campbell, C. D., 10, Swinn, R. C., 0, Tricker 0, Hallsworth not out 7, Latham 0, Fowler 1, Arthur 1; extras 7; total 41.

v. HULME SETTLEMENT.—June 5th. Home. Won. Hulme Settlement 19. Second Eleven: Trafford 6, Flood 29, Tricker 0, Fowler 7,

Hallsworth 2, Swinn 5, Coe 9, Campbell 3, Hemmerdinger not out 14, Somerfield 2, Arthur 18; extras 11; total 103. Wickets: Coe three for no runs.

v. BOWDON COLLEGE 2ND.—June 12th. Away. Won. Bowdon 38. Second Eleven: Trafford 3, Flood 0, Tricker 0, Hemmerdinger 10, Arthur 2, Swinn 12, Campbell 4, Fowler not out 5, Latham 0, Hallsworth 2, Terry 8; extras 2; total 48. Wickets: Latham five for 14.

v. MANCHESTER GRAMMAR SCHOOL 2ND.—June 19th. Away. Drawn. Manchester Grammar School 85 for eight. Second Eleven: Trafford 6, Flood 1, Hemmerdinger 14, Arthur 6, Swinn 2, Fowler 2, Campbell not out 10, Coe 0, Somerfield 0, Tricker not out 6, Latham 0; extras 8; total (for nine wickets) 54.

v. WAREHOUSEMEN AND CLERKS' SCHOOL.—June 26th. Away. Won. Warehousemen and Clerks 35. Second Eleven: Trafford 7, Flood 2, Hemmerdinger 9, Arthur 3, Fowler 9, Campbell 23, Swinn 16, Tricker 4, Coe 3, Somerfield 0; Latham not out 6; extras 4; total 86. Wickets: Coe three for no runs.

v. ALTRINCHAM COUNTY SCHOOL.—June 30th. Away. Lost. Altrincham 102. Second Eleven: Trafford 4, Hemmerdinger 18, Tricker 0, Swinn 3, Fowler 2, Campbell 1, Arthur 0, Flood 0, Coe 2, Latham 0, Somerfield not out 2; extras 4; total 36.

v. ST. BEDE'S COLLEGE 2ND.—July 3rd. Away. Drawn. The School: 72 for one wicket (Trafford not out 27, Hemmerdinger 40). St. Bede's did not bat.

UNDER 14 MATCHES.

v. ST. BEDE'S COLLEGE (Under 14).—May 15th. Home. Lost. H.G.S. 24; St. Bede's 31.

v. CHETHAM HOSPITAL.—June 12th. Home. Won. H.G.S. 72; Chetham's 39.

v. MANCHESTER GRAMMAR SCHOOL (Under 14).—June 19th. Away. Lost. H.G.S. 41 (Moore 20); M.G.S. 75.

v. SOUTH MANCHESTER SCHOOL.—June 26th. Home. Won. S. Manchester 17; H.G.S. 101 (Williamson 65, Alston not out 18).

v. ALTRINCHAM COUNTY SCHOOL (Under 14).—June 30th. Home. Won. H.G.S. 57 (Williamson 34); Altrincham 52.

The House Championships.

Livesley Cricket Shield, 1919: Byrom House.

Samuel Jones Football Shield, 1919-20: Byrom House.

Lacrosse Flags, 1919-20: Byrom House.

Worrall Athletic Shield, 1920: Byrom House.

Cricket League, 1919: Heywood House.

Football League, 1919-20: Heywood House.

The Athletic Sports.

At the annual athletic sports, held on Wednesday, June 9th, we were again very fortunate in the weather, a fine sunny afternoon, not too hot, providing the best conditions both for competitors and spectators. The arrangements were again in the hands of Mr. Gatley and Mr. Tyson, as treasurer and secretary respectively. The running course was laid out with his accustomed skill by Mr. Dorrans, this being the 30th occasion on which he has measured out and roped the ring, and we may congratulate ourselves and him upon this long

record of efficient service. The competitions, of which the preliminary stages had been decided on the two previous days, were completed with the results given below. The Worrall Shield for the Champion House was gained by Byrom House, which had a long lead of points over the others, and the Gaskell Challenge Cup for open events was won by R. E. Howard (Byrom), who was first in the mile, half-mile, long and high jumps, and second in the 100 yards. The other cups with age limits were gained by E. N. Webb (Gaskell), C. D. Campbell (Alpha), and A. G. Campbell (Alpha). An interesting exhibition of drill was given early in the programme under the direction of C.S.M. Johnson.

The prizes were given away in the Assembly Hall by Mrs. Maxwell Garnett, who received a hearty vote of thanks for her kindness, on the motion of the Head Master and Mr. J. W. Morley.

We are indebted to numerous kind contributors to the prize fund.

The results were as follow:—

HENRY WORRALL SHIELD: Byrom House.

GASKELL OPEN CHAMPIONSHIP CUP: Howard, R.E., Byrom House.

CARDWELL CUP, under 16: Webb, E. N., Gaskell House.

DONNER CUP, under 15: Campbell, C. D., Alpha House.

CHINA CUP, under 14: Campbell, A. G., Alpha House.

THROWING CRICKET BALL, under 14: 1, Campbell, A. G. (A.); 2, Williamson, Winston (H.).

THROWING CRICKET BALL, under 15: 1, Campbell, C. D. (A.); 2, Pearce, J. (A.).

THROWING CRICKET BALL, under 16: 1, Douglas, W. E. (H.); 2, Somerfield, J. L. (H.).

THROWING CRICKET BALL, Open: 1, Nelson, M. C. (D.); 2, J. J. Bourne (Beta). Length, 83yds. 1ft.

LONG JUMP, Open: 1, Howard, R. E. (B.); 2, Swinn, A. C. (B.). Length, 15ft. 11½in.

PREPARATORY Department:—

Div. 1, 70 yards: 1, Perkins, W. P.; 2, Mountain, T. G.

Div. 2, 60 yards: 1, Stansby, W. B.; 2, Shevloff, R.
