Photographing Children: Frequently Asked Questions for Parents/Carers

Why do we need a policy?

Schools, playgroups and youth groups have always used photographs as a way of celebrating achievement or seeking publicity for fundraising etc. Parents and families and the children themselves often derive great pleasure from seeing their loved ones in print or on a website. We want to ensure that everyone can continue to enjoy these activities safely. However, parents need to be aware that placing any identifying information in the public domain has risks. Parents need to understand these issues in order to give properly considered consent. It is important that parents and schools have the opportunity to fully consider the issues before any problems can arise.

So what are the risks?

The most highly publicised and worrying risk is that a child who appears in the paper or on a web site may become of interest to a predatory sex offender. Locating people through the internet has become extremely easy, using widely available software, so if there is a picture and the name of a setting or youth group and the name of the child it could be quite easy to find out the child's address and even work out their likely route to school. There are also other specific groups of children and families whose safety could be put at risk if identified eg families fleeing domestic abuse.

To limit these potential risks, we will take appropriate steps, as outlined in the attached consent form, to safeguard children and the wider community.

Isn't this just scaremongering?

Sadly no. There have been cases of families receiving unwelcome phone calls following appearances in the press. However, this is rare so it is important to have a sense of proportion in these matters. Remember we want to celebrate success and achievement but parents must be aware of risks in order to make an informed decision.

What about school websites?

The same concerns apply to school controlled sites and there is an added concern that images of children may be copied directly from a site which can then be manipulated or changed by another person. Schools can copy protect images and use lower quality images which means they cannot be usefully enlarged but this can be bypassed so it must not be relied upon to keep images safe.

I want to do my own recording of the school play/event is this ok?

Taking pictures or recordings of your own children for your own personal use is ok. The difficulty arises with plays or other events in that other children may also be filmed. It is important that we are all aware that some members of the community (children or adults) may be vulnerable and must not have their image shared online as they could be put at risk from harm. You may not always know who these people are and we need everyone's support to protect the whole community. It is also important for us all to role model positive behaviour for children, so it might be a sensible idea to check first before posting any images online which contain other children than your own.

Parents/carers should not copy images from the school's site without appropriate permission from the school.

Image Use Booklet for Parents, Carers and Students

William Hulme's Grammar School
The best in everyone™

Part of United Learning

Our Ref: AVB/Resources/Image Use.docx

Date:

Dear Parent/Carer

General Data Protection Regulation (GDPR) - Parental Consent for Image Use

This letter explains why we will need to ask for your consent before we are able to take photographs of your child during their time at William Hulme's Grammar School and with United Learning.

Generally, photographs are a source of pleasure and pride. We believe that the taking and use of photographs can enhance the self-esteem of children and their families and therefore is something to be welcomed and appreciated.

We may take photographs for a number of reasons whilst your child is with us, including:

- documenting and recording education activities.
- recording their learning and development progress.
- recording special events and achievements.

We will also encourage children to be active learners, and to become involved in using cameras themselves by taking photos of their surroundings, activities and of each other.

We do, however, recognise that with the increased use of technologies, particularly digitally and online, the potential for misuse has become greater and we understand that this can give rise to concern. We will therefore endeavour to put effective safeguards in place to protect children and young people by minimising risk.

We are mindful of the fact that some families may have reasons why protecting a child's identity is a matter of particular anxiety. If you have special circumstances either now or at any time in the future, which would affect your position regarding consent, please let us know immediately in writing.

We include the safe use of Cameras and Images as part of our Digital Safety Policy, which you are welcome to view or take a copy of at any time.

To comply with GDPR, we need your permission before we can photograph or make any recordings of your child. If your children are old enough to express their own views, you may want to consult with them about categories of consent, and we invite you to use this letter to explore their feelings about being photographed at school.

Please read and complete the attached forms in the booklet and return to us as soon as possible. Please do not hesitate to contact us should you have any queries.

Yours sincerely

Mrs K Heaton
Principal

Dear Parent/Carer

Group Activity Permission Letter and Form

You may be aware that we have a policy in place regarding the taking, making and use of images and you may previously have signed a consent form stating whether or not your child could be photographed. As you also know, we regularly stage productions, assemblies and other special events in school, and we know that parents/carers like to take photographs/videos on these occasions. Please be aware that parents/carers are not permitted to take photographs or to make video recordings on such occasions.

We all enjoy and treasure images of our family and friends and we now have the exciting dimension of adding our images and videos to our online social network, such as Facebook, YouTube and many other websites. This means that we can easily share our photos and video with family and friends.

Whilst this can be very useful to all of us we must ensure we protect and safeguard all children and staff, including those who do not want to have their images stored online.

- Once posted and shared online any image or video can be copied and will stay online forever.
- Some children are at risk and **MUST NOT** have their image put online. Not all members of the community will know who they are.
- Some people do not want their images online for personal or religious reasons.
- Some children and staff may have a complex family background which means that sharing their image online can have unforeseen consequences.
- Therefore, in order to keep all members of the community safe we must all **'Think Before We Post'** online.

At William Hulme's Grammar School, we are very happy for parents and carers to take photos and videos of events for personal use but we request that these images are not distributed or put online. This is to protect all members of the community.
